

SPARTAN NEWS

Valuable information and updates for the HVAC Industry

Issue # 6

September 20, 2004

Spartan Peripheral Devices will present at the **ISH show (booth # 553) in Boston, October 14,15,16, OUR NEW ZONE VALVE LINE.**

Spartan Peripheral Devices V411 & V431 system valves have many industrial features and with the AV2400 variable speed, variable ration cast aluminum linkage, provide unparallel quality and value.

Utilising anti-dezincification bronze components and a heavy-duty valve body, they are coupled with a unique variable ratio, all-metal cast linkage system.
